

QUALITY POLICY

Consultora EG-Sciences SpA is a company specializing in providing consulting services in geotechnical engineering, civil engineering projects, and the mining industry. The company also has expertise in both laboratory and on-site testing, covering basic and specialized assessments in soil characterization for foundations engineering and fill compaction.

Consultora EG-Sciences SpA., is part of an international network of technical experts in geophysics, engineering geology, underground mining geomechanics, hydrogeology, and earthquake geotechnical engineering. This capability allows the company to provide multidisciplinary services of the highest technical standards.

Reaffirming its commitments to delivering services that meet and exceed client requirements and expectations, **Consultora EG-Sciences SpA** upholds a Quality Management System aligned with the ISO 9001 standard, ensuring the active participation of the entire organization.

To meet the requirements of the Quality Management System, the General Management of **Consultora EG-Sciences SpA** has commitment the following:

- Promote and ensure the effective dissemination and application of the Quality Management System (QSM).
- Engage and encourage the involvement of all personnel to achieve the company's quality objectives.
- Identify and capitalize on opportunities for improvement through the continuous optimization of Quality Management System (QMS) processes.
- Consolidate the company's growth and profitability through a commitment approach to risk and opportunity management.
- Maintain and enhance staff training to ensure the proper execution of the activities defined within the organization.
- Comply with all applicable legislation and regulations governing production and commercial processes.
- Provide the necessary support and resources to continuously enhance the effectiveness of the Quality Management System.

By meeting the requirements and policies of our Quality Management System, and efficiently utilizing human and material resources, we can consistently deliver products and services on schedule that meet or exceed client expectations.
